

DOT 407 SS

STRAIGHT ROUND EXPOSED RING TANK TRAILER

Brenner acid tanks have an impressive record for reliability that's been proven over more than four decades. This uncompromising standard for performance has earned Brenner a leadership position in the stainless steel tank market.

AUTOMATED MANIPULATOR WELDING

Brenner's exclusive welding manipulators affix rings with precise automatic welds, for consistent quality.

SEAM WELDING

Brenner's CNC plasma seam welders reduce heat-affected zones, improving corrosion resistance.

LONGMEMBER

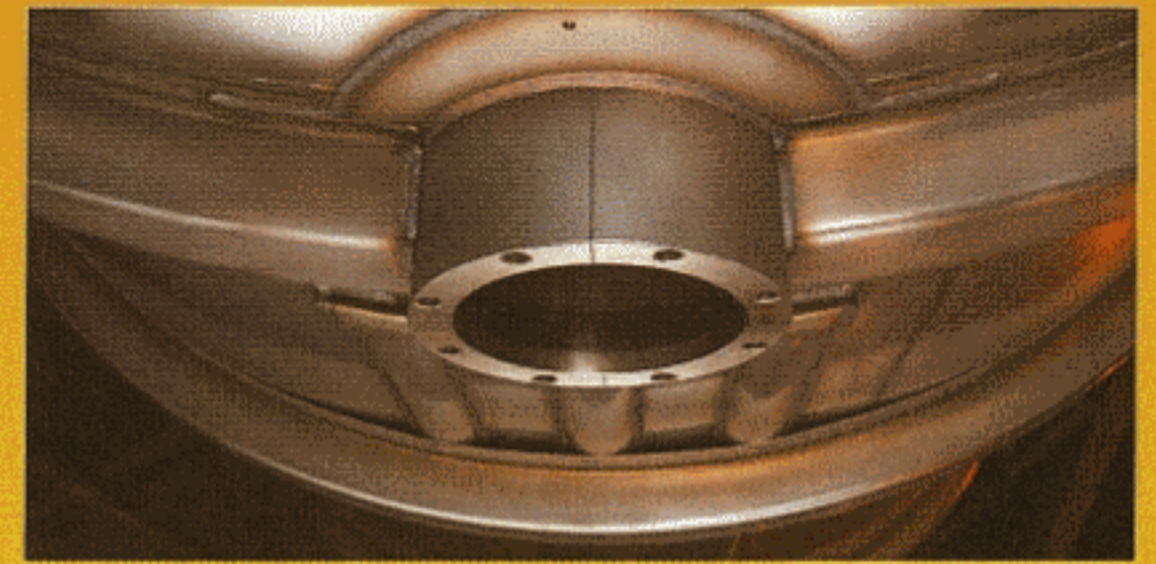

Brenner's upper frame longmembers extend to the shell, greatly improving structural integrity.

ACID & WASTE

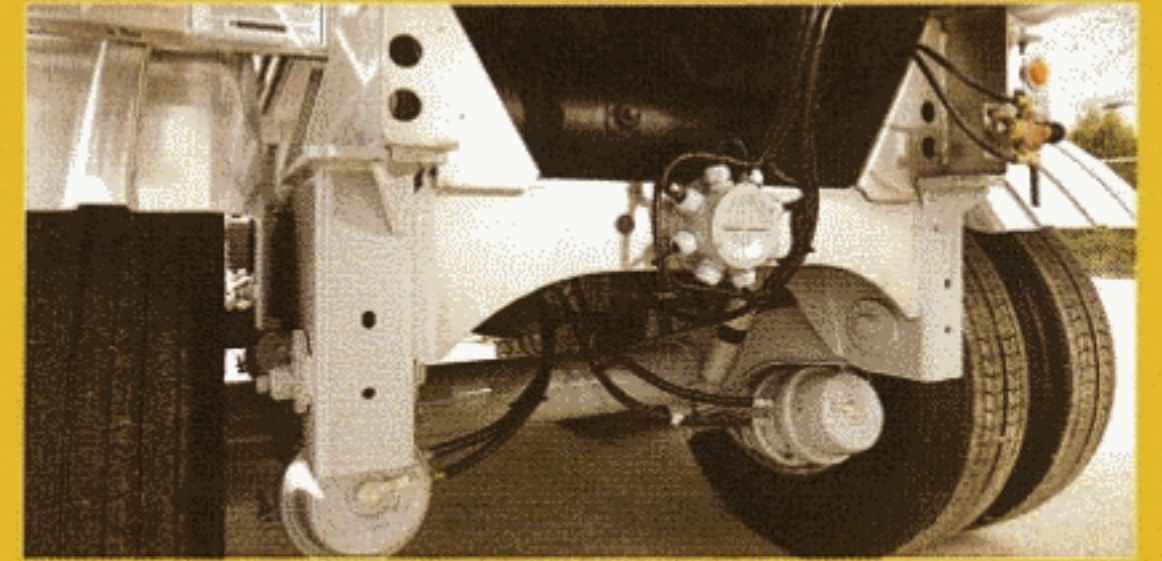

FIT-UP

Tank heads are made in-house, one at a time, to ensure a close tolerance circumferential fit, yielding extended tank life.

SUMP

Brenner's integral sump affords 100% drainage for both pump and gravity discharge.

SUSPENSION

Brenner Tank and our manufacturing partners utilize vigorous testing to ensure our chassis yield the best possible reliability.
